The information contained in this profile is related to the index indicated above. As part of a BMO Life Assurance Company policy, you do not purchase units in this index or a legal interest in any security.

OBJECTIVE

The ETF seeks to replicate, to the extent possible, the performance of an equal weight diversified Canadian bank index, net of expenses. Currently, the ETF seeks to replicate the performance of the Solactive Equal Weight Canada Banks Index (the "Index"). The Index includes Canadian exchange listed securities in the diversified bank industry. Constituents are subject to minimum market capitalization and liquidity screens.

Past performance is no guarantee of future performance. All returns are historical annual compounded total rates of return and reflect changes in yield and distributions reinvested. Managed Indexed, Managed Portfolios and Market Indexed accounts credit an interest amount mirroring the net rate of return of a specified underlying investment, less a BMO Life Assurance Company daily management fee. These rates of return do not reflect the current BMO Life Assurance Company management /universal life fee which must be taken into consideration when determining the net return earned on the account.
